

2n CFGS Illustration

THIRD SEMESTER / 33 ECTS

FOURTH SEMESTER / 41 ECTS

History of Illustration - 3 ECTS

Learn about the historical evolution, technique and aesthetics of illustration. Study graphic art in relation to the sociocultural context. Analyse the influence of the current artistic tendencies, new technologies and the media on formal, expressive and communicative aspects of illustration.

Drawing Applied to Illustration - 3 ECTS

Drawing applied to human figure, objective and subjective representation of models. Observation and photographic memory. Drawing in motion. The face: resemblance, passage of time and deformation. Expression and muscular drawing. Caricature. Creation and study of two-dimensional and three-dimensional characters.

Techniques of Graphic Expression - 3 ECTS

Technical deepening and research of personal works defined as graphic products. Descriptive drawing: digitalization, manipulation and application of digital techniques. Building of three-dimensional elements: photography and digital retouch..

Applied Spatial Representation - 8 ECTS

Work the basics, the concepts and the procedures of different systems of spatial representation: dihedral system, axonometric and conical, assessing their expressive resources in order to be able to apply them to any illustration project.

Traditional Graphic Techniques - 6 ECTS

Introduction to traditional printing techniques in relief, in a vacuum and in flat surfaces, along with their expressive graphic characteristics, and the tools and materials related to them. Applying of traditional printing techniques into the creation of illustrations. Assess the supports for printing. Work on the artist's book and a serie of engravings. Organise and keep a studio, paying attention to procedures which are not toxic, as well as to prevent work accidents and to protect the environment.

Graphic Production Industry - 4 ECTS

Delve into the processes and factors which take part in the different stages of the graphic production industry, since the beginning of the product until its materialization. Analyse projects and prepare files for printing. Materials, supports and printing systems. Finish touches, post-printing and quality control.

Illustration Projects - 25 ECTS

Theoretical and practical study of the sector's different fields: illustrations for the press, series of illustrations for books, cartoon format and graphic novel, advertising illustration and their application to graphic and infographic means. Essay and work techniques on different supports (mural painting, objects, paper architecture or pop-up), practice with different formats (graphic work, sketching, portfolio...). Every project is based on information research, students study the viability of their proposals, carry out final projects and apply them to models or mockups. Marketing study is included in order to achieve a good communication of the projects.

Integrated Project (IP) - 10 ECTS

Plan and create an original and specific project, developing all the stages, and applying the methodological and procedural aspect most fitting in order to guarantee a final product of artistic and technical quality. Communication, presentation and public defense. Includes tutorial monitoring by the expert teacher.

Practical Working Training (internship) - 12 ECTS

Learn the current knowledge and technologies used in a real work environment of a company or institution. Acquire new professional knowledge developing, in the work context, the previously learned curricular knowledges. Understand the productive process and / or service tasks, participate in this process and acquire habits of human relationships within a company.
